

Marin County Coho Salmon Face Extinction

Dear Marin County Board of Supervisors,

We urge you to immediately:

1. Implement ironclad streamside buffers that eliminate current loopholes and prevent any further destruction of critical habitat for coho.
2. Enact a Native Riparian Forest Management Ordinance that protects the Valley's fragile streamside ecosystem and ensures viable, native forests endure into the future in support of healthy streams and salmon populations.
3. Fund ecologically meaningful voluntary conservation incentives to help landowners.
